Egg-White & Protein Bread

MOMENT	GOAL	DIFFICULTY	TIME	SERVINGS
Snack / Breakfast	High protein, low carb	Intermediate	60 min	1 loaf (10 slices)

INGREDIENTS

Almond flour	100 g
Low-fat Greek yogurt	150 g
Liquid egg whites	180 ml
Unflavoured whey protein (optional)	60 g
Baking powder	1 tbsp
Salt	½ tsp

NUTRITION INFO

~100 kcal	~11 g protein
~3 g carbs	~6 g fat

~ estimated values per serving

PREPARATION

1. Preheat the oven to **180°C (350°F)** and line a loaf pan with parchment paper.
2. Whisk the egg whites and the Greek yogurt until smooth and slightly frothy.
3. In a separate bowl, stir together the protein powder, almond flour, baking powder and salt.
4. Fold the dry mix into the wet one until **just combined**: stop as soon as the flour disappears.
5. Pour into the pan and bake **30-35 min**, until firm to the touch and golden.
6. Cool 5 min in the pan, then on a rack. Slice only when **completely cold**.

NUTRITION NOTE

Egg whites and Greek yogurt bring a lot of protein, and almond flour is a different kind of flour: gluten-free, with fat that keeps the bread moist. It is low in carbohydrates, so it is a protein snack, not pre-training fuel. The protein powder is optional (values include it; test the bread without it). Values are per slice (10 per loaf, an estimate). Contains egg, milk and almonds: check allergies.
