PREPARATION

1. Heat the oven to **200 °C**. Dice the sweet potato into ~2 cm cubes.
2. Toss sweet potato and chickpeas with the oil, paprika and salt on a tray.
3. Roast for **25 min**, turning once, until soft and slightly crispy.
4. Warm the rice and put it in a bowl with the spinach on top.
5. Add the roasted mix and finish with the lemon juice.

NUTRITION NOTE

Sweet potato and rice provide carbohydrates to refill energy stores after training, while chickpeas add plant protein and fiber. Iron from chickpeas and spinach is absorbed better alongside vitamin C, which the lemon provides. Nut-free, so it works for most groups.
