~ estimated values per serving

PREPARATION

1. Prick the sweet potato all over with a fork and **microwave it** for 6-8 min, turning it halfway, until very soft.
2. Let it cool a little, then **peel it**. Meanwhile, chop the mushrooms and sauté them in **1 tbsp of the oil** for 5-7 min until soft and golden. Let them cool.
3. Chop the mushrooms and the sun-dried tomatoes **very finely**.
4. Mash the peeled sweet potato with a fork, then mix in the chopped ingredients, the rest of the oil, the sweet paprika, the garlic powder, the oregano and the salt.
5. Taste and adjust. Chill **30 min** so it firms up and serve as a spread or dip.

NUTRITION NOTE

Sobrasada is normally a pork spread: this plant version gets its colour and smoky taste from sweet potato and paprika. Without a blender the texture is rustic; with a food processor, blend it until smooth. Values are per portion (one eighth), without the dippers. Keep chilled and eat within 3 days.
