Session 8 · Dips · Table scorecard

| SESSION | RECIPE | TIME | GROUPS | FORMAT |
|---|---|---|---|---|
| 8 | Dips | ~10 min | Table team | Taste & score |

## THE CHALLENGE

Taste all three dips. Score each from **1 to 5** and tick what makes it filling. Then build the snack plate you would actually eat after school.

## SCORECARD

| | GUACAMOLE | WHITE BEAN & LEMON | VEGAN SOBRASADA |
|---|---|---|---|
| **Taste (1-5)** | | | |
| **Texture (1-5)** | | | |
| **What makes it filling?** tick: fat · protein · fibre | | | |
| **When I would eat it** before training · snack · dinner | | | |

## BUILD YOUR SNACK PLATE

One dip, one vegetable, one carb. Add one thing to make it a proper snack.

| DIP | VEGETABLE | CARB | EXTRA |

## THINK ABOUT IT

- Which dip fills you up the most, and why?
- Which one would you not eat right before training?

## WRAP-UP

A good dip is a vehicle: fat, protein and fibre make it filling, and the dippers decide what you get. Vegetables and a carb turn it into a snack.
